Teaching Philosophy	<p>Teachers have the power to change the trajectory of a student's life. This simple, yet powerful fact impacts every decision I make as an educator. I believe all students deserve an expert teacher in every class, every day. Expert teachers mold and shape each learning experience in such a way every student achieves the goals and maximizes individual potential. Expert teachers understand the whole student and meet the needs of each student every day. Expert teachers create relationships with students to build and support prime classroom culture. These relationships are enduring and permanent, even when the student leaves the teacher's class, the student knows the teacher cares. Expert teachers make all decisions through an expert lens due to their highly developed understanding of interpersonal skills, pedagogy, and content knowledge. Expert teachers do not simply teach, but model all the expectations, skills, and attitudes we teach. I strive to be reflective and purposeful in my teaching and in my own learning in order constantly improve my personal expertise to provide optimum learning for all students, every day. Teachers change the world.</p>

Bio	<p>Amanda Shuford Mayeaux is an Assistant Professor in Educational Foundations and Leadership at the University of Louisiana at Lafayette. Dr. Mayeaux has been an educator for over twenty-five years. She has worked on a variety of campuses spanning grades Pre-K through 12 and in several districts in a variety of contexts from teacher to administration. Her diverse career has allowed her to understand regardless of the circumstances, an expert educator can change the life of child. Dr. Mayeaux has won several national teaching awards, including the Milken Educator Award in 2003 and Disney's Outstanding Teacher of the Year in 2006, along with her teaching team partners, Monique Wild and Kathryn Edmonds. The award winning teachers she met through these award programs inspired her dissertation, which focused on the motivating factors of teachers who continuously pursue expertise. Dr. Mayeaux received the Rayma Harchar Outstanding Research Paper Award from the Louisiana Educational Research Association in 2014 her dissertation research. Her research interests include expert teachers, motivation factors, professional learning, change process, school culture, and effective leadership. Dr. Mayeaux has published a book with Stenhouse Publishers and has several publications on effective teaching and learning.</p>
