

**LEIGH M. TOLLEY, Ph.D.**

Title Department Office Number Extension Email Address	Assistant Professor, Secondary Education Educational Curriculum and Instruction Maxim Doucet Hall 414 x2-1475 <a href="mailto:ltolley@louisiana.edu">ltolley@louisiana.edu</a>
Education	<ul style="list-style-type: none"><li>• Doctor of Philosophy (Ph.D.), Instructional Design, Development and Evaluation, Syracuse University</li><li>• Master of Science (M.S.), Instructional Design, Development and Evaluation, Syracuse University</li><li>• Master of Science in Education (M.S.Ed.), Secondary Education, English, University of Pennsylvania</li><li>• Bachelor of Arts (B.A.), English, University of Pennsylvania</li></ul>
Teaching Philosophy	<p>I believe that the following four principles are integral to effective teaching and learning: (a) collaboration, (b) fostering students' interests, (c) learning through experiences, and (d) reflection on what was learned. In the field of education, particularly in teaching, more can be learned from working with others (<i>collaboration</i>) than by working alone. When working with pre-service or novice teachers in different content areas, especially when many of those learners are adults, it is important to take their backgrounds and interests into consideration (<i>fostering students' interests</i>) when designing and revising instruction. The aspects of teacher training that are effective means of <i>learning through experiences</i>—particularly real-world problem solving, learning and applying new knowledge, and integrating that knowledge into regular practice [e.g., Merrill's first principles of instruction]—are key to new teacher learning and development. Finally, learners' <i>reflection on what was learned</i>, especially for educators, is an element of practice that can further our professional growth, and more importantly, the learning of our students.</p>
Bio	<p>Dr. Leigh M. Tolley started her career at the University of Louisiana at Lafayette as a Visiting Assistant Professor, Secondary Education in the department of Educational Curriculum and Instruction (EDCI) in Fall 2016, and joined the faculty as Assistant Professor, Secondary Education in the EDCI department in Fall 2017. Dr. Tolley earned her B.A. in English and M.S.Ed. in Secondary Education, English from</p>

the University of Pennsylvania, and was an English teacher at her old high school, located in the Philadelphia suburbs, for five years. She taught mostly 11<sup>th</sup> and 12<sup>th</sup> grade students in inclusive/general, college preparatory, honors, and Advanced Placement courses, and earned her permanent Pennsylvania teaching certification in Grades 7-12 English. Along with teaching, she greatly enjoyed serving as the advisor for her school's Literary Magazine and National Honor Society chapter.

Dr. Tolley later earned an M.S. and a Ph.D., both in Instructional Design, Development and Evaluation (IDD&E), from Syracuse University. As a doctoral student, she served on several School of Education and University committees, and was a Teaching Mentor for five years, where she worked with new international and domestic teaching assistants to help orient them to teaching at Syracuse University. She also wrote an advice column for teaching assistants, "Ask the Über," for the Graduate School for two years. At the same time, she was the instructor of record in the "Integrating Technology into Instruction" course series for undergraduate pre-service teachers. She taught or co-taught 19 sections of these one-credit courses over five years, and supervised the three-course series and three other doctoral student instructors in 2012-2013. She earned teaching and leadership awards from the IDD&E department and an Outstanding Teaching Assistant award from the Graduate School of Syracuse University in 2012. As a Future Professoriate Program participant, she also earned a Certificate in University Teaching.

Due to her experiences in secondary teaching, Dr. Tolley is particularly interested in determining how well educational programs work, especially from the perspective of the teachers delivering the instruction. Since 2009, she has been very involved with the American Evaluation Association (AEA). Dr. Tolley has held a leadership role with AEA's PreK-12 Educational Evaluation Topical Interest Group (TIG) for more than seven years as a Member-at-Large and part of the Program Chair and Chair teams. She is currently an AEA TIG Council Member in the Conference Quality and Logistical Enhancements subgroup.

	<p>Since 2017, Dr. Tolley has served as the Specialized Professional Association (SPA) Program Chair for the National Council of Teachers of English (NCTE), as well as a member of the Innovative Program Committee, both in the College of Education at the University of Louisiana at Lafayette. She enjoys being able to collaborate with colleagues in her department, the university, and beyond to determine appropriate, accountable, and innovative approaches to the design, development, implementation, and evaluation of teacher preparation programs.</p>
